

ISPF Annual Report

for year ending 30 June 2011

This is the Annual Report for The ISPF Eligible Rollover Fund (“ISPF”), RSE Registration Number R1068887, ABN 55 807 574 608. It provides information about the Fund for the year ending 30 June 2011. Please read this Report in conjunction with ISPF’s Product Disclosure Statement (“PDS”), which provides important information about the Fund’s main features, costs, benefits and investments. This Report and the Member’s Annual Statement at 30 June 2011 together form ISPF’s annual reporting to members.

The information provided in this Report is of a general nature and does not take into account your individual objectives, financial situation or needs. If you require such specific advice, you should contact an appropriately qualified financial adviser.

The Trustee (or its related entities), the Founder, or the Administrator do not guarantee the performance of the Fund, or the repayment of capital, or any particular rate of return. See the last page for details about the Trustee, Founder and Administrator.

Investment Performance for Year Ended 30 June 2011

After a strong year for returns in 2009/10, the last quarter of the 2010/11 year saw a return to more volatile conditions in the investment markets. ISPF achieved a crediting rate of 2.5% for its members. Over five years to 30 June 2011, ISPF has had an average crediting rate of 1.54%.

A superannuation fund’s investment performance typically varies over time. Because superannuation is a long-term investment, longer term returns smooth out short-term results. Depending on the nature of a fund’s investments (including its risk profile), a fund may experience negative returns from time to time and it is generally not appropriate to assess the performance of a fund by the return for a single year or other short term returns.

The table below shows the rate of earnings allocated to members taking into account the Fund’s reserving policy, compared with the actual investment earnings of the Fund, after the deduction of relevant taxes, fees and costs:

Financial Year Ended	Crediting Rate (%)	Fund Net Earning Rate (%)
30 June 2011	2.5	5.19
30 June 2010	8.0	10.31
30 June 2009	-6.5	-8.21
30 June 2008	-10.5	-13.3
30 June 2007	16.5	17.10
Average*	1.54%	1.58%

* “Average” is the compound average of the net earning rates and crediting rates over the most recent 5 years (per annum). Past performance is not a reliable indicator of future performance. Future performance depends on various factors including the experience of the investment markets or underlying managers used from time to time. Current assets allocations or managers may be different to past allocations and managers.

Your benefits receive some protection from fees and costs

ISPF is an Eligible Rollover Fund (“ERF”). Under Government legislation, ERFs cannot (generally) charge administration fees to members’ accounts in excess of earnings credited to those accounts. This means that the account balances of all members in ISPF are protected from erosion by fees or charges except for periods where the Fund’s total investment earnings to be distributed to members are insufficient to cover the total administration costs to be debited to members’ benefits. In such periods, each member can be charged some administrative costs in accordance with Government legislation including costs of no more than an amount equal to their investment return plus \$10.

This protection does not apply to government taxation or indirect fees. Indirect fees (such as the management fees paid to underlying investment managers) are deducted before the crediting rate is determined.

Any administration fees that are not able to be deducted from members’ accounts may be met from the assets of the Fund (including reserves). These excess administration fees are referred to as “member benefit protection costs”.

Portability of benefits

You can request a transfer of some or all of your benefits to another superannuation fund at any time. Upon receipt of all necessary information, superannuation funds have a maximum of 30 days to transfer benefits where requested to do so by a member, however, a longer period may apply in the case of illiquid investments. Additional information may be required in the case of a request to transfer benefits to a self managed superannuation fund.

Any partial payment of superannuation benefits from superannuation must be withdrawn from the exempt (tax-free) and taxable components in proportion. For more information about tax, see the PDS or seek appropriately qualified advice.

Proof of identity

Under Government legislation designed to counteract money laundering and terrorism financing you may be required to provide proof of identity prior to being able to access your benefits (lump sum or pension payments) or purchase a superannuation pension (called “customer identification and verification” requirements). These requirements may also be applied by the Trustee from time to time in relation to the administration of your superannuation benefits as required or considered appropriate under the Government’s legislation. You will be notified of any requirements when applicable. If you do not comply with these requirements there may be consequences for you, for example, a delay in the payment of your benefits. The Trustee is required to provide yearly compliance reports to a Government body (called AUSTRAC) and notify AUSTRAC of suspicious transactions. This may involve the provision of personal information about you to AUSTRAC.

Additional tax where you have not provided your TFN

Where you have not provided your TFN to the Fund, any taxable contributions such as employer contributions (superannuation guarantee shortfall amounts) paid into the Fund by the ATO (no-TFN contributions) may incur additional tax. The Trustee may (but is not obliged to) recover any additional tax paid by it in respect of your no-TFN contributions if the Fund is subsequently provided with your TFN (within 3 years after the year for which additional tax is assessed). The Trustee will make reasonable endeavours to recover such tax but does not guarantee it will do so in the event that a member has left the Fund prior to receiving the member’s TFN.

You can provide your TFN by contacting the Fund (contact details on the back page).

Under the Superannuation Industry (Supervision) Act 1993, the Fund is authorised to collect your TFN, which will only be used for lawful purposes. These purposes may change in the future as a result of legislative change. The Trustee may disclose your TFN to another superannuation provider, when your benefits are being transferred, unless you request in writing that your TFN not be disclosed to any other superannuation provider.

It is not an offence not to quote your TFN. However providing your TFN has a number of advantages (which may not otherwise apply) including:

- the tax on any contributions to your superannuation account/s will not increase;
- other than the tax that may ordinarily apply, no additional tax will be deducted when you start drawing down your superannuation benefits; and
- it will make it much easier to trace different superannuation accounts in your name so that you receive all your superannuation benefits when you retire.

ISPF's Investment Objectives

The Fund's stated objectives are as follows:

- (1) Members and feeder funds (that is, funds transferring benefits to ISPF) should be in a better or comparable financial situation than would have been the case had those members remained in the feeder funds, after taking into account the effect of net returns, administration fees and member benefit protection;
- (2) The Fund should remain competitive or outperform peer ERFs, measured over rolling three year periods; and
- (3) To exceed inflation by at least 2% averaged over rolling 5 year periods.

Despite these objectives, there may be periods when the net returns, after relevant taxes, fees and costs, are negative.

In making decisions on the asset strategy, the Trustee will have regard to the protection of members' account balances, the Trust Deed provisions, and will comply with all applicable requirements. The Fund's investments will be managed to ensure that there is sufficient liquidity to meet expected cash flow requirements.

The Fund's objectives are not a promise or guarantee of any particular benefit or return. They are used to measure the performance of the Fund.

Investment Strategy

In seeking to achieve the Fund's objectives, the Trustee will adopt a diversified asset allocation which will contain *defensive* assets to ensure stability and liquidity as well as *growth* assets which have the potential for higher returns over the longer period. *Defensive* assets include cash, bank bills and other securities which have a lower expected volatility of return but usually offer lower returns in the longer run. *Growth* assets such as Australian and International shares carry a higher level of investment risk over shorter periods with the possibility of higher returns over the longer term.

The Trustee will invest the assets of the Fund in a number of carefully selected specialist underlying fund managers and investment funds. The underlying fund managers and investment funds can change from time to time at the discretion of the Trustee. During the 2010/11 year, ISPF redeemed in full its investment in Aberdeen Fully Hedged International Shares, and invested the proceeds in an unhedged product, the Platinum Unhedged Fund. The Trustee regularly reviews the performance of the fund managers.

The Trustee does not specifically take into account labour standards or environmental, social and ethical considerations in the selection, retention or redemption of investments associated with this Fund.

Asset Allocation

The Fund's asset benchmark allocations and ranges are summarised in the table below. Variations from these benchmarks or ranges may occur from time to time.

Asset Class	Benchmark %	Range (%)
Australian Equities	40%	30-60
International Equities*	40%	20-40
Total Growth Assets	80%	60-90
Enhanced Cash** & Cash at Bank	20%	10-40
Total Defensive Assets	20%	10-40

* International Shares were fully hedged against currency risk until October 2010. At that time, funds in the hedged product were redeemed and invested in an unhedged product.

** Investments described as "Enhanced Cash" refer to managed funds that primarily invest in cash but redirect some investments to bank securities, asset backed securities and corporate securities to obtain some equity exposure.

The following tables show the types of investment assets held by the Fund at 30 June 2010 and 30 June 2011, including investments which constitute more than 5% of the Fund's total assets.

Underlying Investment Fund	30 June 2011		30 June 2010		Type of Asset
	\$	%	\$	%	
NAB Corporate Cheque Account	562,692	5	1,012,687	6	Cash
Perennial Cash Enhanced Trust	1,823,111	16	1,042,232	7	Cash deposits, bank bills, & corporate securities
QIC Global Fixed Interest Alpha Fund	1,412,385	12	648,718	4	Cash deposits, bank bills, & corporate securities
Perennial Value Australian Shares Trust	2,445,435	22	4,163,414	26	Australian Shares
Solaris High Alpha Fund	2,183,067	19	4,080,932	25	Australian Shares
Aberdeen Fully Hedged International Shares	0	0	2,761,362	17	International Shares
Platinum Asia Fund	2,205,736	20	2,335,677	15	International Shares
Platinum Unhedged Fund	666,557	6	0	0	International Shares
TOTAL	11,298,983	100	16,045,022	100	

There are no investments made in any associated enterprise. The Fund's policy is not to invest in any derivative (futures and options) products however underlying fund managers are permitted to utilise derivatives to hedge against currency risk.

Crediting Rate Policy (including Interim Rate)

Earnings are calculated on a daily basis, after taking into account the Fund's reserving policy and deductions for relevant fees, costs and tax. At the end of each financial year, the Trustee will determine a crediting rate which will be allocated in arrears to members' account balances at 30 June.

This rate may not be the same as the Fund’s investment return and will be determined by the Trustee having regard to the actual investment return on the Fund’s assets after relevant taxes, fees and costs and any amount held in the reserves. For information about the fees and costs deducted prior to the determination of the crediting rate, see the Fund’s PDS which is available on request by contacting the Administrator (see last page for details). Information about the fees and costs that affect your investment is also shown in your Annual Member Statement.

The effect of extreme fluctuations in returns may be cushioned by the use of reserves. However the Trustee does not guarantee the crediting rate will always be positive and the value of your benefit may rise or fall.

An interim crediting rate will be determined from time to time by the Trustee for the purpose of allocating earnings to members who leave the Fund during the year (that is, prior to 30 June). This interim rate will be determined on the same basis as the final crediting rate. The interim rate can be positive or negative.

Reserving Policy

In order to provide members with an exposure to growth assets and therefore a greater capacity for higher longer term returns on investments, the Trustee will from time to time retain a reserve. The level of reserves will not exceed 5% of the vested members’ benefits. The level of reserves will be monitored regularly by the Trustee in the prudential management of the Fund and in accordance with the crediting rate policy outlined above.

The reserve consists of any surplus from administration fees deducted from members’ accounts over operating costs together with any difference between investment earnings and the amount of earnings credited to members’ accounts. Member benefit protection costs may also be paid from the reserve.

Level of Reserves

The levels of reserves at 30 June were as follows:

Year Ended	\$,000	% of Vested Members’ Benefits
30 June 2011	267	2.35
30 June 2010	160	1.00
30 June 2009	72	0.42

Abridged Financial Reports

The financial information shown below has been extracted from the Fund’s audited accounts for the year ended 30 June 2011. Members are entitled to additional information to help them understand their investment and the management of the Fund including the following documents on request to the Trustee: Full Financial Statements, The Auditor’s Report, Trust Deed provisions relating to the member, Australian Prudential Regulation Authority Annual Returns.

Benefits Accrued as a Result of Operations	603,383	1,832,543

Superannuation Legislation Changes and proposed reforms

Benefits Tax

The taxable component of a lump sum superannuation benefit may incur tax, subject to a low rate tax free threshold. The low rate threshold for super lump sum payments has increased for the 2011/12 year from \$160,000 to \$165,000. This threshold is subject to change from year to year. In the 2011/12 year a flood levy may also apply. For up to date information refer to www.ato.gov.au.

Early release of benefits on compassionate grounds

Superannuation can only be accessed in certain circumstances including compassionate grounds where approved by the Australian Prudential Regulation Authority (APRA). Responsibility for assessing whether an individual's super can be released on compassionate grounds has been transferred from APRA to the Department of Human Services (DHS) from 1 November 2011.

Tax file numbers

The Government has passed legislation which allows super fund trustees to use tax file numbers (TFNs) as the primary identifier to link contributions and rollovers with member accounts and to locate members' accounts, from 1 July 2011. It is also expected that regulations will be made to facilitate account consolidation, whether in the same fund or across multiple funds, from 1 January 2012.

Lost Members

The Government has put in place legislation which requires, from the 2010/11 year onwards, accounts of lost members with a balance of less than \$200 to be transferred by superannuation trustees to the Australian Taxation Office (ATO) as unclaimed money. In addition, where accounts of any size have been inactive for five years and

it is not reasonably possible to identify the owner of the account, such accounts must also be transferred to the ATO as unclaimed money. Former holders of these accounts will still be able to reclaim their money from the ATO at any time.

If your account is transferred to the ATO, your membership of the Fund will cease. The ATO maintains a Lost Member Register that can be searched to locate lost monies. Go to www.ato.gov.au for more information.

Financial Hardship

Superannuation can only be accessed on retirement, death, permanent incapacity or other limited circumstances such as severe financial hardship. In the case of severe financial hardship, a member must demonstrate that they have been in receipt of certain welfare payments for a prescribed period. The Government has recently extended the types of welfare payments that qualify for consideration of the release of benefits in the case of financial hardship. If you require further information contact the Administrator (refer to the contact details at the end of this report).

Temporary Residents

Under Division 3 of Part 3A of the Superannuation (Unclaimed Money and Lost Members) Act 1999 (Cth), a former temporary resident's superannuation benefit must be paid to the Australian Taxation Office as unclaimed money where it has been at least six months since they have departed Australia and their visa has lapsed and the Australian Taxation Office issues a notice to the Fund requesting your benefits be paid to the Australian Taxation Office. If this happens, you can claim, your super money directly from the Australian Taxation Office (subject to the applicable tax rates). Also, you will not be notified by the Fund of the transfer of your benefit to the Australian Taxation Office (as the Fund relies on an instrument issued by the Australian Securities and Investments Commission which alleviates the requirement for such a notification in these circumstance, in recognition of the difficulty in locating a former temporary resident's address details).

Please note that the circumstances in which temporary residents can access their superannuation in cash are more restrictive. For example, temporary residents can no longer access their superannuation on grounds of financial hardship or on retirement. Further information can be obtained from the Australian Taxation Office website (www.ato.gov.au) or by contacting the Fund Administrator on 1300 977 857.

Trustee of ISPF

The Trustee of ISPF is The Trust Company (Superannuation) Limited ABN: 49 006 421 638. The Trustee is a specialist trustee company that provides trustee services to numerous superannuation funds and has been granted a Registered Superannuation Entity Licence (No. L0000635) under the Superannuation Industry (Supervision) Act 1993 (SIS). The Trustee also holds an Australian Financial Services (AFS) Licence – AFS Licence No: 235153.

Approved Guarantee

The Trustee satisfies its capital requirements under Section 29 DA (3) of the Superannuation Industry (Supervision) Act through an Approved Guarantee in the sum of \$5 million.

A copy of the Approved Guarantee is available for review at the Trustee's offices.

Indemnity Insurance

The Trustee has taken out professional indemnity insurance in respect of major legal claims made against it. The Trustee is not insured for dishonest, willful or reckless acts.

Insurance cover for members

There are no insurance benefits provided to members of ISPF. The amount payable on death or permanent incapacity of a member is the accumulated account balance.

Enquiries & Complaints

The Trustee has a procedure to enable members to enquire into or complain about the operation or the management of ISPF as it relates to them. If a member has an enquiry they should first telephone the Fund on: 1300 977 857.

Alternatively, if the member has a complaint, they should generally write to:

The Complaints Manager
Independent Superannuation Preservation Fund
PO Box 1047
MILTON QLD 4064 Telephone: (1300) 977-857

All complaints will be dealt with within 90 days. If a member does not receive a response within 90 days or after receiving a response, is not satisfied, they can contact the Superannuation Complaints Tribunal (SCT). The SCT is an independent body established by the Federal Government to consider complaints about Trustee decisions that may be unfair or unreasonable.

The Tribunal may be able to assist the member but only if the member has firstly made a genuine effort to resolve the complaint through the Fund's own complaint process. If the Tribunal accepts the member's complaint it will attempt to resolve the matter through conciliation. Failing this, the matter will be referred to the Tribunal for a determination which is binding on all parties. The SCT can be contacted at:

Superannuation Complaints Tribunal
Locked Bag 3060
MELBOURNE VIC 3001 Telephone: (1300) 884-114
or visit the SCT website at: www.sct.gov.au

Directors of Trustee Company

In the year ending 30 June 2011, the following Directors were on the Board:

- John Atkin (Chairman – Appointed 1 September 2010)
- David RokoGrbin (Resigned 1 September 2010; Re-appointed 23 March 2011)
- Luigi Mario Rodriquez
- Noel Davis
- Vicki Allen (Resigned 23 March 2011)

Nicholas Sette and Sally Ascroft (appointed 15 December 2010) are the Secretaries.

Contact Details

The contact details of relevant parties are as follows:

Trustee

The Trust Company (Superannuation) Limited
PO Box 361
Collins Street West VIC 8007
Telephone: (03) 9665-0200

Administrator

IFAA Pty Ltd
